5. QUALITY CONTROL

RAW MATERIAL INSPECTION

Inspection of raw material includes visual inspection, sighting of heat number, quality and comparing the same with relevant Manufacturers' Test Certificates.

In the absence of proper test certificates the raw material is subjected to various applicable tests like Physical, Chemical, Ultrasonic and Inter Granular Corrosion Tests etc.

FORMATION & SET-UP INSPECTION

After satisfactory results and conclusions, then the material is released for further operations like marking and cutting, bending, welding. Formation of parts checked by technical persons.

WELDING PARAMETERS

All welders appointed on job are qualified and well experienced.

6. MANUFACTURING FACILITIES

Shree Engineering Works has sales office in Nashik. The Manufacturing, Design & Quality Assurance activities are situated at Wadivarhe.

FABRICATION EQUIPMENTS/FACILITIES AVAILABLE

Machinery	
Laser Cutting Machine (1.5 W) (Bodder-make)	01 Nos.
Press Break Machine (110T) (Hindustan)	01 Nos.
Sheet Rolling Machine	01 No.
CO2 Welding	03 No.
Arc Welding Machine	05 No.
Spot Welding Machine	01 No.
Leath Machine	03 No.
Compressor Capacity- 7.5 HP/10 HP	02 No.
Saw Cutting Machine	01 No.
Drill Machines	02 No.
Crane 5 Tone capacity EOT	01 NO

LIST OF INSPECTION MEASURING EQUIPMENTS

Sr.	Category	No of Equipment
1	Vernier Calipers/Electronic 300mm/150mm	2
2	External Micrometers 0-150 mm	4
3	Height Gauge Vernier Reading	1
4	Knife Edge Square 90 degree.	1
5	Bore Gauge Rang 18 mm-200mm	5

LIST OF EMPLOYEES

Sr.	Category	No of Employee
1	Fitters	2
2	Fitters + Welders	4
3	Helper	2
4	Staff –(Technical)	3
5	Laser Operator	1
6	Admin Staff	1
	Total	13
